

# 2026 APAC Regional Growth Strategy & Commercial Campaign Policy

## South Korea 6-Month Promotional Campaign: Outerwear & Coats Acceleration Initiative

**Document ID:** POL-MKT-2026-KR04 | **Classification:** Confidential - Commercial Strategy & Governance | **Effective:** July 1, 2026 – December 31, 2026 (6 Months)

### 1. Executive Summary & Market Opportunity

This commercial policy governs the execution of the **H2 2026 South Korea Outerwear & Coats Promotional Campaign**. Certified Looker baseline analytics (thelook\_prod.order\_items) identify South Korea as the #1 regional opportunity in APAC: Outerwear & Coats represents South Korea's highest revenue category (**\$73,350.75** historical baseline) with a premium Average Sale Price of **\$150.00**. However, order volume (475 orders) lags behind high-velocity categories such as Jeans (649 orders). To capture market share ahead of the critical winter retail season, the executive committee has authorized a structured 6-month promotional campaign combining targeted discount structures with strict margin floor guardrails.

### 2. Promotional Discount & Commercial Terms (The Campaign Rules)

Effective **July 1, 2026 through December 31, 2026**, all retail customer transactions originating from users.country = 'South Korea' are eligible for the following tiered promotional incentives on qualified Outerwear & Coats SKUs:

| Promotion Tier             | Eligibility & Criteria                                                                                              | Discount & Incentive                                                                 | Promo Code / Terms                                          |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Tier 1: Category Growth    | Order includes at least 1 item in products.category = 'Outerwear & Coats'. Minimum cart subtotal: <b>\$120.00</b> . | <b>15% Off</b> qualifying Outerwear items. Maximum discount capped at \$45.00.       | KOREA_WINTER_15<br>One use per verified customer account.   |
| Tier 2: Basket Accelerator | Total basket exceeds <b>\$200.00</b> across any apparel combination including Outerwear.                            | <b>Additional \$20 Instant Credit</b> + Free Expedited Shipping across South Korea.  | Automatic checkout trigger; stackable with Tier 1.          |
| VIP Loyalty Tier           | Customers with prior lifetime spend > \$500 in South Korea (per user_order_facts).                                  | <b>20% Promotional Discount</b> on Outerwear & Sweaters + complimentary garment bag. | Direct invitation code issued via regional customer portal. |

### 3. Financial Guardrails & Unit Economic Protection

- Gross Margin Floor (Mandatory):** Under corporate treasury rules, no combination of promotional discounts may depress the **Gross Margin below 42.0%** (LookML: order\_items.total\_gross\_margin / order\_items.total\_sale\_price).
- High-Cost Product Exclusion:** For premium designer coats where wholesale landed cost exceeds 58% of MSRP, the promotional discount is hard-capped at **8.0%** to protect baseline unit profitability.
- Accounting Standard Compliance:** All campaign discounts are recognized as a contra-revenue item under **ASC 606** and must reconcile against the certified Looker order\_items.total\_sale\_price measure.

### 4. Regional Extended Return & Refund Policy (South Korea)

- 60-Day Extended Return Window:** To reduce online purchasing friction for high-ticket outerwear, South Korean customers receive an extended **60-day return window** (compared to the global standard 30-day window) for all unworn Outerwear & Coats items.
- Express Regional Refund SLA:** Returns collected via our Seoul and Gyeonggi logistics hub are inspected and refunded within **48 business hours** of carrier handover.
- Impact on Net Revenue:** Returned items are automatically updated to status 'Returned' and deducted from certified Net Revenue in Looker.

### 5. Target 6-Month Campaign Milestones & Performance Quotas

| Performance Metric | Pre-Campaign Baseline (Looker) | 6-Month Target Quota (H2 2026) | Strategic Business Target |
|--------------------|--------------------------------|--------------------------------|---------------------------|
|--------------------|--------------------------------|--------------------------------|---------------------------|

|                               |                      |                          |                                   |
|-------------------------------|----------------------|--------------------------|-----------------------------------|
| South Korea Outerwear Revenue | \$73,350.75          | \$125,000.00             | +70.4% Revenue Growth in Korea    |
| Completed Outerwear Orders    | 475 completed orders | 800+ completed orders    | +68.4% Unit Volume Expansion      |
| Average Sale Price (ASP)      | \$150.00             | Maintain $\geq$ \$142.00 | Protect premium brand positioning |
| Maximum Refund Rate           | 7.8% of gross orders | $\leq$ 9.5% threshold    | Sustained quality guarantee       |

6. Knowledge Catalog Governance & Privacy Guardrails (GDPR / PIPA)

- **Catalog Registration:** This policy is formally indexed in Google Cloud Knowledge Catalog (Dataplex) under entry group governance-policies (Entry: south-korea-outerwear-campaign-policy).
- **PII Protection (South Korea Personal Information Protection Act - PIPA):** Direct customer identifiers (users.email, users.phone, Korean resident registration numbers, home delivery addresses) are tagged as **RESTRICTED\_PII**. Commercial agents analyzing campaign performance must aggregate metrics strictly by geographic dimensions (users.country = 'South Korea', users.state, users.city) and are prohibited from surfacing individual customer PII.
- **Authoritative Semantic Layer:** All campaign reporting must be generated via Looker's certified Explore (thelook\_prod.order\_items). Unapproved direct SQL queries bypassing Looker are non-compliant with corporate audit standards.
